

East Rose Access Statement

Updated February 2019

This Access Statement is a guide to help you decide if our cottages and facilities are suitable for your holiday requirements. If you would like any further information regarding accessibility, please contact us on 01208 850674 or email info@eastrose.co.uk

Introduction

East Rose is a 12th Century moorland farmstead set in 17 acres of an area designated of Outstanding Natural Beauty with seven self-catering holiday cottages ranging from one bedroom to three bedrooms (sleeping between one and six). The cottages are former stone farm buildings. Barn and Tamarisk are on two floors. Mowhay, Shippen and Stable are all ground level (with no steps to access). Moor and Rose are both ground level, but do have steps to access the property. Also on site is a laundry room, recycling/bin store, fishing hut and grounds made up of five lakes, large lawn areas, and picnic / barbeque areas.

We have tried to provide as much information in this statement as possible. However, everyones needs and requirements are different and therefore we encourage all of our guests to contact us and discuss their personal requirements at any time.

Nb. All sizes and distances are approximate.

Pre-Arrival

We have a detailed website – www.eastrose.co.uk – which has descriptions and images of all the cottages, grounds and facilities. It also has tariff and availability and details of what we provide. Bookings and enquires can be made through the website, by e-mail, post, in person or over the telephone.

Directions are available on our website, and also sent to first time guests with booking confirmation, along with arrival information and additional information on East Rose.

We would recommend that anyone coming to East Rose has their own transport. We are in a rural location on Bodmin Moor, with little or no public transport services. There is no bus service to East Rose.

Bodmin Parkway railway station is 10.5 miles away with a taxi rank (please note the station is approximately 3.5 miles out of Bodmin town centre). Newquay Airport is 23 miles away.

Arrival and Car Parking

East Rose is located approximately 10 minutes from the A30 at Temple. A Sat Nav using our postcode (PL30 4NL) will direct you to us.

The cottages are available for occupation from 3pm on the first day of your holiday. If you anticipate arriving after 5pm, please contact us to make arrangements for key collection. If you arrive before 3pm, you are welcome to wander the grounds until your cottage is ready.

There is no vehicle access directly outside the cottages. The car park is located no more than 50 meters to all cottages. Guests who hold a valid disabled permit can park in the disabled car park (left hand side as you enter the property). As spaces are limited, we ask that disabled spaces are pre booked by indicating the requirement on the initial holiday booking form. Vehicles can pull up to the wooden barrier as you enter the property for loading/unloading, but we ask that vehicles are then parked in the appropriate car park to allow other guests access to this area.

There is a sloping vehicle entrance to the right as you enter the property (tarmac finish), into the main car park (granite chipping finish), and a slightly sloping pedestrian walkway from this car park to the cottages (tarmac finish / brick paving). The disabled car park is located on the left hand side as you enter the property and is finished with tarmac, it is almost level from here to Mowhay, and a slight slope down to Shippen and the farmhouse/enquiry door. Pathways to all cottages are finished with tarmac or brick paving.

Outside areas are lit to a low level – it is advisable to bring a torch as well. There are outside lights located within the main car park, the disabled car park area, outside all cottage front doors, the side of the farmhouse, and areas around pathways. A small wind up torch is provided in each cottage.

There is a trolley available to be used to take luggage to the cottages and we are happy to provide assistance.

Office / Enquiries

Enquiries can be made at the main farmhouse (white building in the centre of the complex). There is no reception onsite, just the owners living accommodation and office. Please ring the doorbell for any enquiries. Doorbell height is 58” (147cm).

Laundry Room/Utility Room

The Laundry room is located just past the farmhouse, through the archway. There is a slight slope down from the farmhouse to the door of the laundry room over a combination of brick paving and concrete. There is one step into the laundry (8” high), and the doorway is 28”wide by 77” high. The door opens inwards on a right hinge.

Within the laundry room, there is one washing machine and one tumble drier. Both front door entry machines, and both located on the ground level. To operate the machines, they requires £1 coins, to be inserted on wall mounted meters on the wall behind the machines.

Bin Store and Recycling

We have a bin store located within the complex, which we ask that you use to dispose of any of your rubbish or recyclable waste. Access to the bin store is via a concrete path, then grass. There is no door to the store. There are a number of dustbins (general waste) and crates (recycling).

Gardens and grounds

The cottages are located within a 17 acre site, which includes large gardens, two fields, storage sheds, a stable / storage block and a lake complex. Private areas are the two grazing fields, the storage sheds, the stable / storage block and the lawn area in front of the farmhouse. Other than these areas, guests are free to wonder around the site as they wish.

Any gates that are opened (leading to the lake complex or to the moorland) MUST be closed behind you.

There is a small lawn area at the front of Mowhay cottage (not enclosed) for the use of guests in this cottage only, and includes a picnic table. All other cottages have communal lawns and picnic areas, including picnic tables. All lawns are on a slight slope. There are tarmac paths from the cottages to three picnic table areas on the main lawn between the cottages and the lakes.

We live in a very natural area, and as such, we live alongside a large amount of wildlife. Wild animals (rabbits, foxes, badgers, deer) live in abundance within the fields and hedgerows and will often cause damage to the lawns. Although we will do our best to ensure any damage they cause has been rectified, care must be taken by guests to look out for such hazards as rabbit holes and lawn damage.

Picnic tables and benches are located throughout the gardens and lake area. A built in barbeque area is also located within the gardens for use by guests.

Lake Complex and Fishing Hut

We have a fishing hut available for guests located in front of the access into the lake complex. There is a step into the hut 9" high. The hut doors are 28" wide and 69" high. Gates giving access to the lake complex have a minimum width of 35" and a 49" maximum height of release clasp.

We have over half a mile of pathways around our lakes which are all lawned, other than a short area around Top Lake which is wooden decked.

The pathways around our lakes can become boggy in certain areas after periods of heavy rain. There are also areas of uneven ground due to root movements and subsidence. We, therefore, do not consider our lake paths suitable for wheelchair users or for people with restricted mobility.
